Report Status Final

Date Reported 05/05/2006

Released by BJC

Test	Code	Result Description
MMO-MUG	00	Total coliform not detected, E. coli not detected

Comments:

Registry Comments:

The water sample tested is bacteriologically suitable for drinking (potable). IMPORTANT: Bacteriological testing of a single sample of water is only one means of determining the suitability of water for drinking. It is also critical that the water source location, system construction and ongoing maintenance/treatment are adequate to consistently protect against bacterial contamination.

METHOD: SM9223

This is a public record. Information contained in this report may be used for statistical purposes and may be released upon request, pursuant to Vermont Access to Public Documents law (1V.S.A.315-320)
Results relate only to the items tested. This water was not analyzed for possible chemical contamination.

This reports shall not be reproduced, except in full, without the written approval of the laboratory.
